To Whom It May Concern:

I am writing to request an appeal of the claim denial for <Patient Name> for the administration of TAKHZYRO® (lanadelumab-flyo). TAKHZYRO was approved by the U.S. FDA in August 2018 and is indicated for prophylaxis to prevent attacks of hereditary angioedema (HAE) in patients 12 years and older.

<Payer Name> has indicated that the reason for the denial, which was explained on the <Explanation of Benefits or Remittance Advice>, was <list reason(s) for denial>. I disagree with this decision and request that this claim denial be reversed.

My patient, who has been diagnosed with HAE, began treatment with TAKHZYRO on <Date>. In my clinical judgment, treatment with TAKHZYRO is medically necessary. <Provide clinical justification for treatment>.

I have enclosed additional documentation that supports treatment with TAKHZYRO. I would appreciate your reconsideration of this claim and ask that you consider reversing your decision. If you have any further questions, please feel free to call me at <Physician Telephone #> to discuss.

Thank you in advance for your immediate attention to this request.

Sincerely,

<Physician Name>
